

A legacy of beauty

PERFECTLY AT HOME
in every corner of the continent

WE FIT
YOUR STYLE

WE STAND UP TO
YOUR WEATHER

*From the mountains to the coasts...
Wherever you call home, a DaVinci roof
lives up to your vision of beauty and stands
up to the challenges of your weather.*

DaVinci has been the leader in composite roofing for nearly two decades. Our commitment to creating durable, beautiful roofing tiles is unparalleled. You won't find a more realistic or better-performing roofing product anywhere.

With DaVinci, you can retain all the character your home was intended to have without worrying about time-consuming and costly maintenance. Whether you're replacing an existing roof or looking for the crowning touch on a new construction project...
just leave it to DaVinci.

WILMINGTON, DELAWARE

Hot and steamy defines this Delaware town. The subtropical setting has 60% humidity consistently throughout the year and gets an average of 9 days of precipitation each month.

Engineered to look better, longer.

Thick construction, deep grooves and realistic grain patterns combine to create dramatic shadows and visual richness.

Due to DaVinci's performance features, many insurance companies now offer reduced rates when switching from cedar or slate, especially in high wind-, fire- or hail-prone areas.

Realistic chisel marks add a hand-crafted finishing touch.

DaVinci tiles are made of pure virgin resins fortified with state-of-the-art UV stabilizers. The color you pick is the color you keep.

DaVinci products are modeled from actual slate and hand-split shake for natural, non-repeating beauty.

WHAT'S BEHIND THE BEAUTY IS *Genius*

Every region of North America presents challenges to the exterior of your home. Mother Nature's fury is universal.

With the damaging effects of sun, hail, gale-force winds and freeze and thaw cycles, roofing materials are at odds with the weather year-round.

DaVinci's unique composite construction outperforms both natural slate and cedar shake with a Class A Fire Rating, Class 4 Impact Rating and a 110 MPH

Wind Rating. But the real genius of a DaVinci roof lies in its ability to provide lasting beauty and a constant source of pride.

DaVinci roof tiles are constructed of a composite material made of pure virgin resins, UV and thermal stabilizers as well as a highly-specialized fire retardant. The result is a state-of-the-art tile that gives us the greatest degree of color control and consistency in the manufacturing process and an end product that endures beautifully in any climate.

VS. NATURAL SHAKE

Unfortunately, the long-haired performance attributes of cedar shake have disappeared along with old-growth trees. Rotting, cracking and curling is inevitable. In most climates, cedar shake has a lifespan comparable to (or even less than) asphalt. DaVinci composite tiles give you the look you love with superior durability for a lifetime.

DaVinci roofing tiles are proudly manufactured in Lenexa, Kansas.

VS. NATURAL SLATE

Like a rock? Slate tiles are not immune to the ravages of time...or hail. Its tiny fissures make natural slate susceptible to damage caused by freeze and thaw cycles. DaVinci slate products defy the elements for decades of enduring and worry-free beauty.

Our commitment TO COLOR

Nobody offers you more color options than DaVinci—your only limitation is your imagination.

Our industry-leading standard color palette is just the beginning. As our name implies, our ability to blend colors and create drama is unparalleled. So whether you're selecting a single color or opting for one of our expertly-crafted VariBlends,™ we've got you covered.

When it comes to bringing out the best in your home...leave it to DaVinci.

JUST LIKE NATURE

DaVinci's proprietary VariBlend™ manufacturing process creates subtle color variations from one tile to the next. The nuanced shifts result in the most natural-looking composite roof you can buy.

Our color blend options consist of as few as one to as many as eight individual colors to create a dynamic range of results.

THE DAVINCI NATURE CRAFTED COLLECTION™

The DaVinci Nature Crafted Collection is our most ambitious foray into color development to date. Our advanced technology has simulated the warmth and softness of a patina previously only created by time and exposure to the elements. Our Nature Crafted Collection captures the look of a moment and retains it for decades.

Look for the Nature Crafted Collection symbol and experience the industry's most advanced color technology yet.

Cool roofs BUILT TO BE COOL AND STAY THAT WAY

DaVinci Cool Roof tiles reflect sunlight and heat away from the home. Higher emissivity and reflectivity rates lead to greater reductions in the cooling load and in return increase energy efficiency.

Look for the Cool Roof symbol for options that can increase energy efficiency in your home.

YOUR HOME WAS MADE
FOR CEDAR OR SLATE

DaVinci was made for your home

THIS IS FOR KEEPS

It's easy to fall in love with the look of natural slate or cedar shake. Their beauty is at the heart of many architectural styles, old and new. DaVinci gives you the look you want and so much more: resistance to impact, splitting and cracking as well as a Class A fire rating and the peace of mind that comes with a Lifetime Warranty.

Visual VERSATILITY

DaVinci offers the beauty of natural slate and cedar shake in different tile options, giving you the ability to meet your aesthetic vision as well as respect your budget.

MULTI-WIDTH

Our most authentic-looking and versatile option, DaVinci's Multi-Width tiles set the high mark for luxury. Laying tiles of multiple widths in a straight or staggered pattern creates the most natural, non-repeating appearance possible.

SELECT SHAKE

Created from real cedar profiles, Select Shake gives your home the beauty of authentic wood while remaining maintenance-free. The versatile design provides a worry-free, best-in-class roof that speeds up installation with the look of multi-width shake.

SELECT SHAKE Page 24

SINGLE-WIDTH

Single-width tiles add a budget-friendly touch of tradition to your home in either a straight or staggered pattern. The uniform tile size and impact-resistant composite construction work to reduce waste and speed up installation.

PROVINCE

The inspired engineering of Province makes uncommon beauty considerably more attainable. Its innovative design requires less overlap (reducing waste and cost), making it a stylish upgrade that won't bust the budget.

PROVINCE SLATE Page 16

DAVINCI SLATE

Historically, attaining the luxurious look of natural slate hasn't been easy. The cost, the weight and the required army of skilled tradesmen made the installation process complicated and costly. Thanks to the genius of DaVinci, the look of slate is more viable than ever.

MULTI-WIDTH

Multi-width tiles provide the greatest degree of authenticity and flexibility.

SINGLE-WIDTH

Single-width tiles reduce material and speed up installation time without compromising style.

CREATING EXPOSURE

Straight or staggered tile coursing is a personal choice. Although budget and architectural style will enter into the equation, personal preference is typically the final determining factor. With DaVinci Multi-Width and Single-Width tiles, you have the greatest ability to vary tile placement. Province Slate tiles must be installed at an 8" exposure.

Multi-Width and Single-Width Slate can be installed at 6", 7", 7½" and 8" exposure.

Multi-Width, Single-Width, and Select Shake can be installed at 9" and 10" exposure.

WE KEPT EVERYTHING YOU LOVE... *and made it better.*

It's no wonder people are drawn to the timeless good looks of slate tile and cedar shake. The allure is unmistakable. A DaVinci composite roof lives up to the look of nature, but does so without the ongoing maintenance, repairs and replacement.

At DaVinci, we made a good thing better:

Resistant to fading, rotting, cracking and pests

Stands up to wind, hail and fire as well as or better than natural materials

Enjoy the peace of mind that comes with a Lifetime Limited Material Warranty

Every tile reflects the artistry and the genius of DaVinci himself
